## BLM National Monuments - Planning Priorities List

12/11/17

### Introduction

The BLM manages 27 National Monuments. Twelve have existing Resource Management Plans (RMP), 4 have RMP's that are in development, three have no RMP's, and eight have RMP's with amendments in process.

### Background

Executive Order 13792, "Presidential Executive Order on the Review of Designations Under the Antiquities Act," dated April 26, 2017, (Order or EO 13792) directed the Secretary to conduct a review of certain Presidential designations made under the Act, to determine if the designations conformed to the policies set forth in the Order. The Order instructed that two reports summarizing the review be provided:

- a. an Interim Report within 45 days, addressing the Bears Ears National Monument established by Proclamation No. 9558, dated December 28, 2016, and "other such designations as the Secretary determines to be appropriate for inclusion"; and
  - b. a Final Report within 120 days, summarizing the findings of the review for all other monument designations covered by the Order.
- The Interim Report was issued on June 10, 2017.
  - On December 4th the President issued the Presidential Proclamation Modifying the Grand Staircase-Escalante National Monument and the Presidential Proclamation Modifying the Bears Ears National Monument.
    - The Proclamation Modifying the Grand Staircase-Escalante National modifies the boundaries of the 1.7 million acres of Federal lands to 3 units: the Grand Staircase, Kaiparowits, and Escalante Canyons units of the monument (1,003,863 acres).
    - The Proclamation Modifying the Bears Ears National Monument modifies the boundaries of the 1.35 million acres of Federal lands to 2 areas: the Shash Jáa area and the Indian Creek area; and excludes from its designation and reservation approximately 1,150,860 acres.
  - On December 5th, in accordance with the Order, Secretary Zinke released the Final Report outlining the recommendations he made to the President on national monument designations under the Antiquities Act.
    - The review result findings include Broadly and Arbitrarily Defined "Objects"; Landscape Area Designations; Traditional Uses Limited; Concerns of State, Tribal, and Local Governments; Enforcement and Protection Concerns.
    - In addition to the Bears Ears and Grand Staircase-Escalante National Monuments, the Final Report included recommendations to modify the boundaries and management of Cascade-Siskiyou and Gold Butte National Monuments.

On September 15, 2017, Secretarial Order 3356 was issued which directs the BLM to "amend National Monument Management Plans to include or expand hunting, recreational shooting, and fishing opportunities to the extent practicable under the law." The BLM is developing an action plan to identify recommendations to amend or develop National Monument Management Plans to expand opportunities; and to identify potential actions that would further enhance hunting, fishing, and recreational shooting opportunities within National Monuments.

#### **Priority List**

In order to respond to the modifications made to the Proclamations for Bears Ears and Grand Staircase-Escalante and changes that occur from the December 5th Final Report, each of BLM's monuments were prioritized. The following table shows the monument, current planning status, the recommendations identified in the Secretarial Report, and a range of options to address the recommendations. The amending of proclamations and boundary revisions identified in the 09/05/17 Secretarial Report are outside the BLM's authority. The BLM will coordinate with the Department through standard procedure as those recommendations are implemented. In addition, the BLM will work with the Department to coordinate with the Departments of Homeland Security and Defense for applicable recommendations.
